WELCOME TO WEBGOAT.NET

[Lesson Instructions](#)

WebGoat.NET is a purposefully insecure web application - use it to learn and understand about bad coding practices in .NET. Each Module on the left side illustrates a common web vulnerability. WebGoat.NET was designed to be used in live training and/or e-learning environments.

You appear to be connected to a valid MySQL provider. If you want to reconfigure or rebuild the database, click on the button below!
